Welcome to the Fusion Portal

The IAEA focuses its efforts on facilitating the coordination of international fusion undertakings and enhancing the interaction of developing Member States with leading fusion initiatives.

This IAEA Fusion Portal represents an information exchange platform for scientists working on fusion-related activities. The portal is hosted in the IAEA NUCLEUS domain and is driven by the IAEA Physics Section.

It contains up-to-date information on the main IAEA activities such as conferences, workshops technical meetings and training courses, as well as relevant documents and links, and a world survey of activities in controlled nuclear fusion research.
