

EXPECTED CONTRIBUTIONS FROM UKRAINE

Dr. Mykola Odeychuk

odeychuk@kipt.kharkov.ua

**National Science Center “Kharkov Institute of Physics and Technology”
Kharkov, Ukraine**

INFORMATION MATERIALS

**The List
of transferred materials from KIPT technical reports to the IAEA
for International knowledge base on nuclear graphite.**

1. The interim report on experimental design work «The optimization of design and manufacturing technology for spherical fuel elements and absorbing elements on pyrocarbon binder for reactor VG-400». № OTD 137/29.12.87. 4.2. Results of pre-irradiation tests and irradiation tests for GSP graphite. – Kharkov: KIPT, 1987, P.46-78. Total 37 pages.

INFORMATION MATERIALS

2. The final report on experimental design work «The optimization of design and manufacturing technology for spherical fuel elements and absorbing elements on pyrocarbon binder for reactor VG-400». № OTD 188/19.12.88. 5.2. Results of pre-irradiation tests and irradiation tests for GSP graphite. – Kharkov: KIPT, 1988, P.170-204. Total 40 pages.

3. The explanatory note to the technical project VK.01572 PZ «The spherical fuel element for experimental-industrial reactor plant of low power». T.1. The description and justification of the chosen design of the spherical fuel element. № OTD 230/29.09.89. 7. The pre-irradiation tests of the spherical fuel elements. - Kharkov: KIPT, 1989, P.81-110. Total 35 pages.

The total number of transferred pages - 112.

INFORMATION MATERIALS TRANSFER

Time scales – until July 01, 2015

Method of transfer – hard copies and electronic copies

Thank you very much for your attention!
